

PPC – data files update

Briefing Audience:

Public Electronic Communication
Network Providers

Interconnect Notification no. 06044

The PPC Exchange Name Postcode file that was uploaded on to Our Network website on the 4th September 2006 will be republished on 3rd October 2006.

There was a minor error in the published postcodes file which was found to be incorrect only where the postcodes had multiple exchange relationships. This has effected less than 0.5% of the published relationships in this particular file.

We have now rectified the problem and will be re-publishing the file on 3rd October.

Please note

- This does not affect the calculation sent out by the Customer Management Centres.
- All other files are not affected.

If you would like to know more about the PPC files on the site please look at Interconnect Notification (Ref: 06041) which is available at
