

FIBRE COVERAGE

AS OF 1 NOVEMBER 2016

- Fibre broadband covers over 26 million premises in the UK
- 100 additional dedicated fibre exchanges will be available soon

Speeds up to 40 times faster than copper.
We have the largest fibre broadband network in the UK.

WHOLESALE BROADBAND CONNECT

AS OF 1 NOVEMBER 2016

- Coverage reaching more than 99% of the UK population
- WBC extends beyond 92% of the population and continuing to grow
- Over 3,676 sites enabled for WBC
- 100s more to be enabled soon

More access options than any other UK network provider, including copper, FTTC and FTTP.

Run on world-leading 21C network.

WBC can support: IP voice, video conferencing, CCTV, TV on demand and much more.
