

BT MEETME® / BT MEETME® GLOBAL ACCESS

Making meetings easy

With less travel and faster decision making, audio conferencing can offer businesses a way to respond to day-to-day challenges, quickly and effectively, increasing productivity and gaining competitive advantage.

And now it's even better than ever, with crystal clear audio. Our new **BT MeetMe with Dolby Voice** makes it seem as if you're in the same room as the other conferencing participants. You can find out more about this exciting new service in our BT MeetMe with Dolby Voice datasheet.

BT MeetMe is a great way to bring members of the sales, finance, human resources and IT, or any other 'virtual' team together, instantly. With service availability via BT MeetMe Global Access, participants from the UK and over 55 other countries can meet anytime for the cost of a local call.

Now BT MeetMe has been enhanced with Dolby Voice, meetings can flow much more freely, as everyone can be heard and understood – and distracting background noises are eliminated.

Understanding BT MeetMe

BT MeetMe with Dolby Voice is an instant conferencing service that only requires access to a phone to enable highly productive meetings with up to 40 participants. No prior booking is required and conferences can be established in the time it takes for participants to call in. The service is easy to use, and it's available at any time, every day of the year.

BT MeetMe enables you to interact with colleagues, customers, suppliers and partners in your own personal meeting room. If you have customers or colleagues abroad, you can use the BT MeetMe Global Access service. This enables participants from the UK and over 55 other countries to join a conference call with a local dial-in number, saving them the cost of an international call.

BT MeetMe with Dolby Voice provides such clarity that it makes it easier to run meetings with global teams where English might not be everyone's first language and accents could cause confusion (especially if voices are indistinct).

Did You Know?

- **Extra fast.** No prior booking required, conferences can be held instantaneously, in the time participants take to call in
- **Intimate.** Interact with other conference participants in your own personal meeting room
- **Effortless.** Easy-to-use, phone numbers and passcodes do not change¹
- **Multiple speakers.** Accommodates up to 40 participants
- **Record ability.** Instantly record conference calls and download the recording after the call to archive or share for future use².

BT MeetMe accessibility

- Participants need only a phone mobile or landline
- Available at any time, every day of the year
- Global Access available with a local dial-in number from the UK and 55 other countries
- Passcodes are specific to your meeting room and don't change.

Compatibility

- Compatible with web conferencing through Microsoft® Office Live Meeting and WebEx.

Security

- Conference lock to bar outsiders, even the operator, from sensitive conversations.

Help and support

- Co-ordinator help can be requested at any time.

BT MeetMe Global Access

BT MeetMe Global Access allows people from over 55 countries to join a BT MeetMe conference by dialling a local phone number.

No prior booking is required and the service is available at any time, every day of the year. And because participants overseas dial in using a local number, BT MeetMe Global Access reduces their cost of joining the conference.

Bringing people together

BT MeetMe does not replace all traditional face-to-face meetings but complements them by bringing participants together without anyone having to leave their office. So whatever your role, less time is spent travelling, enabling faster and more responsive decision – making.

Big Benefits

- **Cost savings.** Compared with traditional audio conferencing solutions, BT MeetMe with Dolby Voice can bring a 25% improvement in task efficiency and cost savings of 30% or more¹
- **Increased productivity.** Less travel and faster decision-making means increased productivity. With service availability via BT MeetMe Global Access, participants from the UK and over 55 other countries can meet instantaneously, for the cost of a local call
- **Competitive advantage.** You can respond more quickly and effectively. Sharing information is made easier and informed decisions can be made regardless of the location of key individuals. It can also help you reach and work with customers and suppliers wherever they are, widening your customer base and tapping into new markets
- **Ease of use.** There's no need to book. All you need is a phone, landline or mobile. You don't need to be in an office. BT MeetMe can be accessed with a local dial-in number from any UK location or over 55 countries where BT MeetMe Global Access is available. The Chairperson and participants use the same dial-in numbers and Passcodes for every conference call².

BT Wholesale means total confidence
