Dots in the sections above are a guide to briefing impact

When the new AIT (Artificial Inflation of Traffic) process was launched in March 2010, one of the provisions was that there should be the opportunity for a contract review of AIT after twelve months. In accordance with the “SIA Contract Review Guideline” this briefing constitutes Step 1 of the AIT Contract Review, and invites CPs to submit any review issues to BT by close of play Friday 4th March 2011 to the BT Commercial Interface Team.

This notice is being issued as “Step 1” in accordance with the draft “SIA Contract Review Guideline” which was discussed and agreed as part of the ongoing 2010 SIA General Contract Review discussions.

Step 2 is for CPs to submit any review issues that they may have to BT to commercial.interface@bt.com with “2011 AIT Contract Review” in the subject line by close of play on Friday 4th March 2011.

A pro-forma is appended as a Related File which it would be helpful to use.

If any CP wishes to pursue issues bilaterally – i.e. not as part of a common industry process - a CP is of course at liberty to do that. If a CP wishes to submit information which it does not wish to be shared with the generality of CPs, then the CP needs to clearly mark it as “Sensitive” or “Confidential” and BTW will not include the information in the Consolidated issues Document.

Step 3 then provides that BT issues a briefing making available on the SIA Contract Review website a consolidated list of issues (those of all CPs plus BT’s own issues), and we look to do that week commencing Monday 14th March 2011. BT is proposing an initial meeting to clarify issues and classify them in London week commencing Monday 28th March 2011 (Step 4), with the intention of also agreeing an ongoing programme and timescales.

Any queries on this briefing should be addressed to commercial.interface@bt.com
