

# Product stop sells and FTTP exchange upgrades

In December 2025, the Public Switched Telephone Network (PSTN) will be switched off and all services migrated to IP or mobile-based products. In the lead up, as Openreach upgrades the UK's digital infrastructure, Wholesale Line Rental (WLR) products will be shut down in certain parts of the country.

Following Openreach's announcement of the two pilot exchange areas of Salisbury and Mildenhall, they have announced another 219 exchanges being upgraded to Fibre to the Premises (FTTP).

## What's going on?

### Pilot locations

As the first pilot location, Salisbury will be the first city to have full FTTP coverage. WLR stop sell was announced for December 2020, with all existing WLR/MPF services being moved to new FTTP/Ethernet and IP voice services. WLR will be withdrawn in December 2022.

Mildenhall's WLR stop sell will be in May 2021, with services being withdrawn in December 2022. WLR/MPF services won't be upgraded to FTTP, but will be migrated to fibre alternatives inside the fibre footprint, with WLR services outside the footprint being moved to alternatives such as SoGEA and SoADSL where available.

### 220 exchanges moving to FTTP

In addition to Salisbury, a further 117 exchanges will be upgraded to FTTP only by June 2021, once a minimum of 75% FTTP coverage is reached. Stop sell notifications have been issued at the end of June 2020, giving 12 months' notice. Since then there has been a further notification of upgrades to another 51 exchanges by October 2021.

Stop sell will apply at a premises level only, where there's access to an available FTTP product.

- In those premises, stop sell of non-FTTP products will apply. There'll be no new supply of the following: CP transfers; working line takeovers; adding broadband

to voice lines; bandwidth modify; start of stopped lines; or migration to non-FTTP products.

- If premises can order FTTP, only FTTP will be available for new supply. As it becomes available at more premises, these will immediately come within scope of the stop sell.
- For premises that can't access FTTP or SOGfast (if FTTP isn't available), WLR, FTTC/Gfast, SOGEA or SOADSL (when launched and if no fibre is available) will still be available.
- Exceptions are being discussed with industry.

You can see a full list of the impacted exchanges at the end of this document.
