

Product stop sells and FTTP exchange upgrades

In December 2025, the Public Switched Telephone Network (PSTN) will be switched off and all services migrated to IP or mobile-based products. In the lead up, as Openreach upgrades the UK's digital infrastructure, Wholesale Line Rental (WLR) products will be shut down in certain parts of the country.

Openreach has already successfully initiated two pilot stop sells in Salisbury and Mildenhall. And since then, it has announced another 296 exchanges will be upgraded to Fibre to the Premises (FTTP).

What's going on?

Pilot locations

As the first pilot location, Salisbury was the first city to have full FTTP coverage. WLR stop sell was announced for December 2020, with all existing WLR/MPF services being moved to new FTTP/Ethernet and IP voice services. WLR will be withdrawn in December 2022.

Mildenhall's WLR stop sell was in May 2021, with services being withdrawn in December 2022. WLR/MPF services within the fibre footprint will be migrated to fibre alternatives such as FTTP and SoGEA, with WLR services outside the footprint being moved to alternatives such as SoADSL where available.

297 exchanges moving to FTTP

In addition to Salisbury and Mildenhall, a further 117 exchanges were to be upgraded to FTTP only by June 2021, once a minimum of 75% FTTP coverage was reached.

But due to delays caused by the coronavirus pandemic, this first tranche of upgrades has been split in two. The second half has been shifted to a later deadline in October 2021, joining 51 locations that were already planned for that date.

Another 51 exchanges will be upgraded by 25 January 2022, followed by 77 leading up to 29 April 2022.

Stop sell will apply at a premises level only, where there's access to an available FTTP product.

- In those premises, stop sell of non-FTTP products will apply.

There'll be no new supply of the following: CP transfers; working line takeovers; adding broadband to voice lines; bandwidth modify; start of stopped lines; or migration to non-FTTP products.

- If premises can order FTTP, only FTTP will be available for new supply. As it becomes available at more premises, these will immediately come within scope of the stop sell.
- For premises that can't access FTTP or SOGfast (if FTTP isn't available), WLR, FTTC/Gfast, SOGEA or SOADSL (when launched and if no fibre is available) will still be available.
- Exceptions are being discussed with industry.

You can see a full list of the impacted exchanges at the end of this document.
