

Wholesale Hosted Communications with Cisco Webex

Collaborate better, and make your work exceptional

The power of Wholesale Hosted Communications (WHC) with Cisco Webex

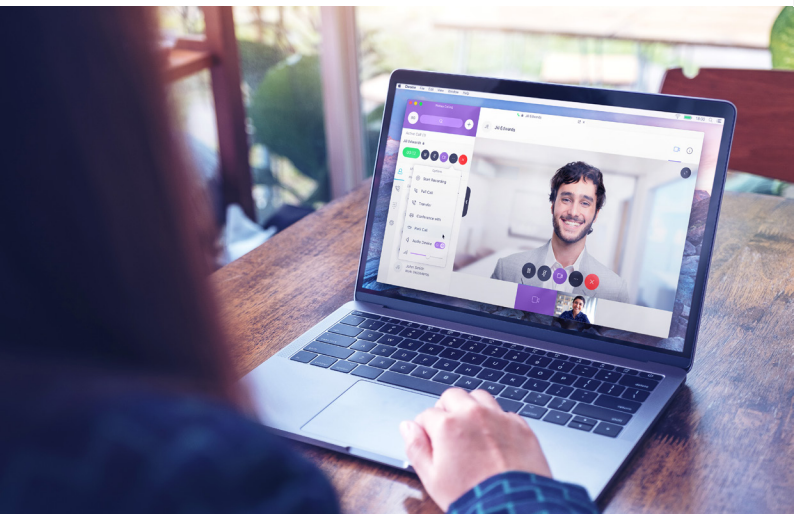

Make meetings better

- Use customisable layouts to enhance your experience.
- Get a consistent experience, anywhere, on any device.
- Easily schedule and share meetings in your chosen calendar app.
- Use reactions and gestures to join in without breaking up the discussion.

Share and collaborate

- Share your screen from any device, including iOS and Android phones.
- Make your presentations more engaging with immersive share.
- Collaborate using intuitive shared whiteboarding.
- Easily share individual files or apps, or your entire screen.

Protect your business

- Control who and who can't access your shared spaces.
- Keep unwanted guests out of your calls, with enterprise-grade security.
- Protect your files, messages and whiteboard drawings, with end-to-end encryption.
- Set security policies that suit your business.

Work smarter

- Reduce app swapping, thanks to integrations with third-party tools.
- Choose from thousands of third-party apps.
- Make Cisco Webex calls in apps like Microsoft Teams and Slack.
- Use Cisco Webex with a range of deskphones.
