

Jabra Biz 2300 QD

Make every conversation a great sounding experience

World class sound

Take your brand to a higher level with the power of better conversations. Jabra Biz 2300 is compatible with all leading desk phones¹.

Great customer conversation

Jabra Biz 2300 will ensure every customer conversation becomes a great experience. Biz 2300 features Hybrid Wideband speaker performance and best-in-class noise cancellation.

Comfortable all day long

Jabra Biz 2300 blends light-weight yet durable construction with an unobtrusive, professional Scandinavian design aesthetic. The headset works hard, looks great and is designed for easy daily handling. It is a headset built to be comfortable all day long.

Built to last

Jabra Biz 2300 is built with total cost of ownership in mind. Beside 360° degree rotating break proof boom arm and reinforced cord, Biz 2300 is built to withstand any punishment a high-performing user can give.

Reasons to choose

Jabra Biz 2300 QD

- Crystal clear sound – breath resistant microphone with noise cancellation
- Advanced build – durable cord and break proof boom arm
- Superior comfort – 20% lighter than competitors with padded ear cushions

01 How to connect

02 How to use

Jabra Biz 2300 QD - Features

Air shock microphone

When the microphone is close to the mouth of the user, there is a risk of respiratory noise. To reduce it, the microphone is designed aerodynamically, and with many small holes instead of a larger hole. In addition, there is included foam on the inside of the microphone. Overall, it reduces the penetration of air shocks to the microphone, which optimizes the call quality.

Reinforced cord

Reinforced cords help to deliver performance and value to end user by providing excellent robustness, fatigue resistance and durability, which in total contributes to the cords overall quality, and by that reduces the headset's total cost of ownership.

FreeSpin

The unbreakable 360° swiveling boom arm ensures that end-users always have the option to customize the location of the microphone optimally in relation to current needs without exposing the boom arm to any break risk.

PeakStop™ hearing protection

PeakStop™ technology immediately removes potentially harmful loud sounds or tones before they reach your ears and keeps the sound level within the safe range to protect your hearing.

Noise canceling microphone

Noise Canceling microphones reduce unwanted background noise and are ideal in crowded and noisy, open office environments.

Talk in comfort

Assure total comfort with a wide range of styles that match your individual needs and personal fit requirements. Our light, ergonomically designed frames along with soft ear cushions, adjustable headbands and microphone boom will guarantee that your headset will be comfortable all day long.

Jabra Pro 920 Wireless Headset

The Pro 920 is an easy to use, professional wireless headset with great sound making it ideal for contact center agents and customer service advisors.

Stay connected to your customers around the office

Take calls from the desk phone directly on the headset. Available in DECT version, with several mono and duo variants for desk phones.

Enjoy clear sounding calls and user safety

With HD voice, noise-reducing speakers and a noise cancelling microphone, you can hold lifelike, vibrant conversations. Jabra SafeTone™ enhanced hearing protection technology limits average volume exposure during your working day to keep it within acoustic standards.

Catch customer calls all day

Walk and talk up to 120 meters/395 feet away from your desk for improved collaboration, multi-tasking and productivity. The Pro 920 delivers a minimum of 8 hours battery life with easy charging via the base unit.

Intuitive design for fast user adoption

This plug and play headset comes with a pre-connected charging base so you can make calls straight away. The lightweight frame, soft ear cushions and adjustable headband and microphone boom ensure the headset is comfortable all day long.

Reasons to choose

Jabra Pro 920 wireless headsets

- Stay connected to your customers around the office
- Enjoy clear sounding calls
- Up to 120 meters/395 feet range and 8 hours battery time
- Our most user friendly professional wireless headset
- Optimized for use with all leading desk phone systems

02 Headset

Jabra Pro 920 - Features

Crystal clear sound

Digital Signal Processing for clearer sound

Clear sound is essential for a good conversation not to mention call efficiency and accuracy. Digital Signal Processing (DSP) in Jabra audio devices will remove background noise and echo as well as protect the user against sudden high peaks in volume. Call handling time and potential misunderstandings are significantly reduced.

Remote Call Control

Seamless integration between your phone and headset

Answer and end calls on the Jabra audio device with seamless integration between your phone and headset. The remote call control gives you the power to multitask and be productive. With a Jabra wireless audio device you can control your call even when you are away from your desk.

HD Voice - Wideband audio

High quality audio for crystal clear conversations

Enjoy high-definition sound with HD Voice and get crystal clear, intelligible communication. You get life-like, vibrant conversations where you can focus on the content and don't have to struggle to understand what the person on the other end of the line is saying.

SafeTone™

Enhanced hearing protection

Jabra SafeTone™ includes Jabra PeakStop™ and Jabra IntelliTone™, the enhanced hearing protection technology. Benefit from clear, crisp and automatic limitation of average volume exposure during your workday according to acoustic standards and regulations. A feature that offers you significant confidence, safety and comfort while enhancing the quality of your communication.

Noise canceling microphone

Reduces unwanted background noise

Noise Canceling microphones reduce unwanted background noise and are ideal in crowded and noisy, open office environments.

Talk in comfort

Be kind to your ears

Assure total comfort with a wide range of styles that match your individual needs and personal fit requirements. Our light, ergonomically designed frames along with soft ear cushions, adjustable headbands and microphone boom will guarantee that your headset will be comfortable all day long.

120 Meter / 350 Feet wireless freedom

Hands-free communication up to 120 meters / 350 feet

Get wireless mobility up to 120 meters / 350 feet to fully control your Jabra hands-free solution with DECT technology. Answer calls, multitask and move freely around on your terms.

8-hour battery life

Talk up to 8 hours with no battery life concerns

A wireless audio device would not be a useful tool without an incredible battery life. Even with so much performance packed into such a small space, it still lasts up to 8 hours on a single charge. So you can talk and work as long as you want.

Jabra Motion UC+ Bluetooth Mono Headset

Motion Sensor intelligence

Jabra Motion is the ultimate headset featuring a unique intelligent motion sensor that allows you to effortlessly take or make that important call wherever you are. Featuring the best that the latest technology has to offer, Jabra Motion is above and beyond your expectations.

With the built-in motion sensor and advanced microphones, Jabra Motion intelligently adapts to your surroundings when you're on-the-go or working in the office. The unique flip-boom arm has integrated wind-noise protection technology, so you don't have to worry about noise interference during your calls even in windy conditions. With Jabra Motion you get the best-in-class sound experience delivered through advanced patent pending technologies.

The motion sensor also adds to the intuitive handling of your incoming and outgoing calls – simply pick up the headset and put it on your ear to automatically answer a call. But if your hands are busy, it's as easy as using your voice to control the headset. Whichever way suits you the best in a given moment, you're free to carry on with your daily tasks.

Jabra Motion has been designed with your personalized comfort in mind – with Jabra's legacy of the behind-the-ear wearing style and unique height adjustment of the speakertower, you can wear the headset in a way that makes you feel most comfortable. And when you're done using it, simply fold the flip-boom arm and put the headset in your pocket to take it with you.

Jabra Motion also features NFC technology* for easy pairing – simply tap the headset on your smartphone and you're easily connected to take and make calls or stream your favorite multimedia – music, GPS and podcasts. It's really the only headset you'll ever need!

Reasons to choose

Jabra Motion UC+

- Sound adapts to motion and environment
- Intuitive flip-boom with wind-noise protection
- Personalized comfort – adapts to any ear

*Device dependent

1. Connection

Connecting with a bluetooth device

1. While pressing the Call button, open the flip boom-arm. Release the Call button when the Bluetooth light flashes blue.
2. Wear on the ear and follow the voice-guided connection instructions.

Connecting with an NFC device

To pair using an NFC-enabled device, refer to the online user manual.

2. Wearing

Height adjustment

Get the perfect fit for your ear by adjusting the height of the speaker up or down.

Left or right ear wearing style

The headset can be worn on the left or right ear. To switch ear:

1. Pull the speaker all the way down.
2. Rotate the speaker 180°.
3. Twist the eargel around to fit.

3. Usage

	On/off	Open or close the flip boom-arm
	Answer call	Open the flip boom-arm, or tap the call button if the boom-arm is open
	End call	Close the boom-arm, or tap the call button
	Reject call	Double-tap the call button when there is an incoming call
	Redial last number	Double-tap the call button when not on a call
	Adjust Speaker volume	Slide a finger up/down the Volume touch-sensitive panel
	Voice commands	Tap the Voice and Mute microphone button when not on a call, until you hear 'Say a command'. Say 'What can I say?' for a list of voice commands
	Mute microphone	Tap the Voice and Mute microphone button during a call

Did you know?

You can download the User Manual at jabra.co.uk/motion to learn more about additional features such as Advanced MultiUse, NFC and motion sensor interactivity. The Jabra Connect app is now available for your android or iOS device.

Note

It takes 2 hours to fully charge the headset.
